

Thème 1, partie A :
Chapitre 1 : Cycle cellulaire

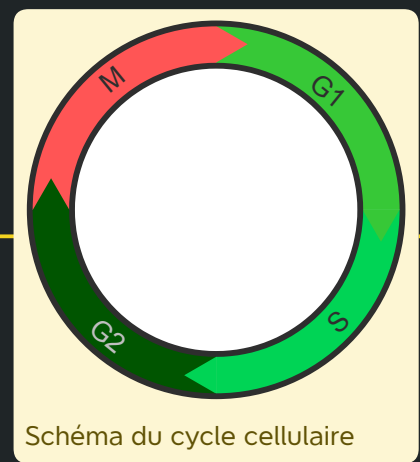

IV - Duplication des chromatides et réplication de l'ADN

0 - Introduction

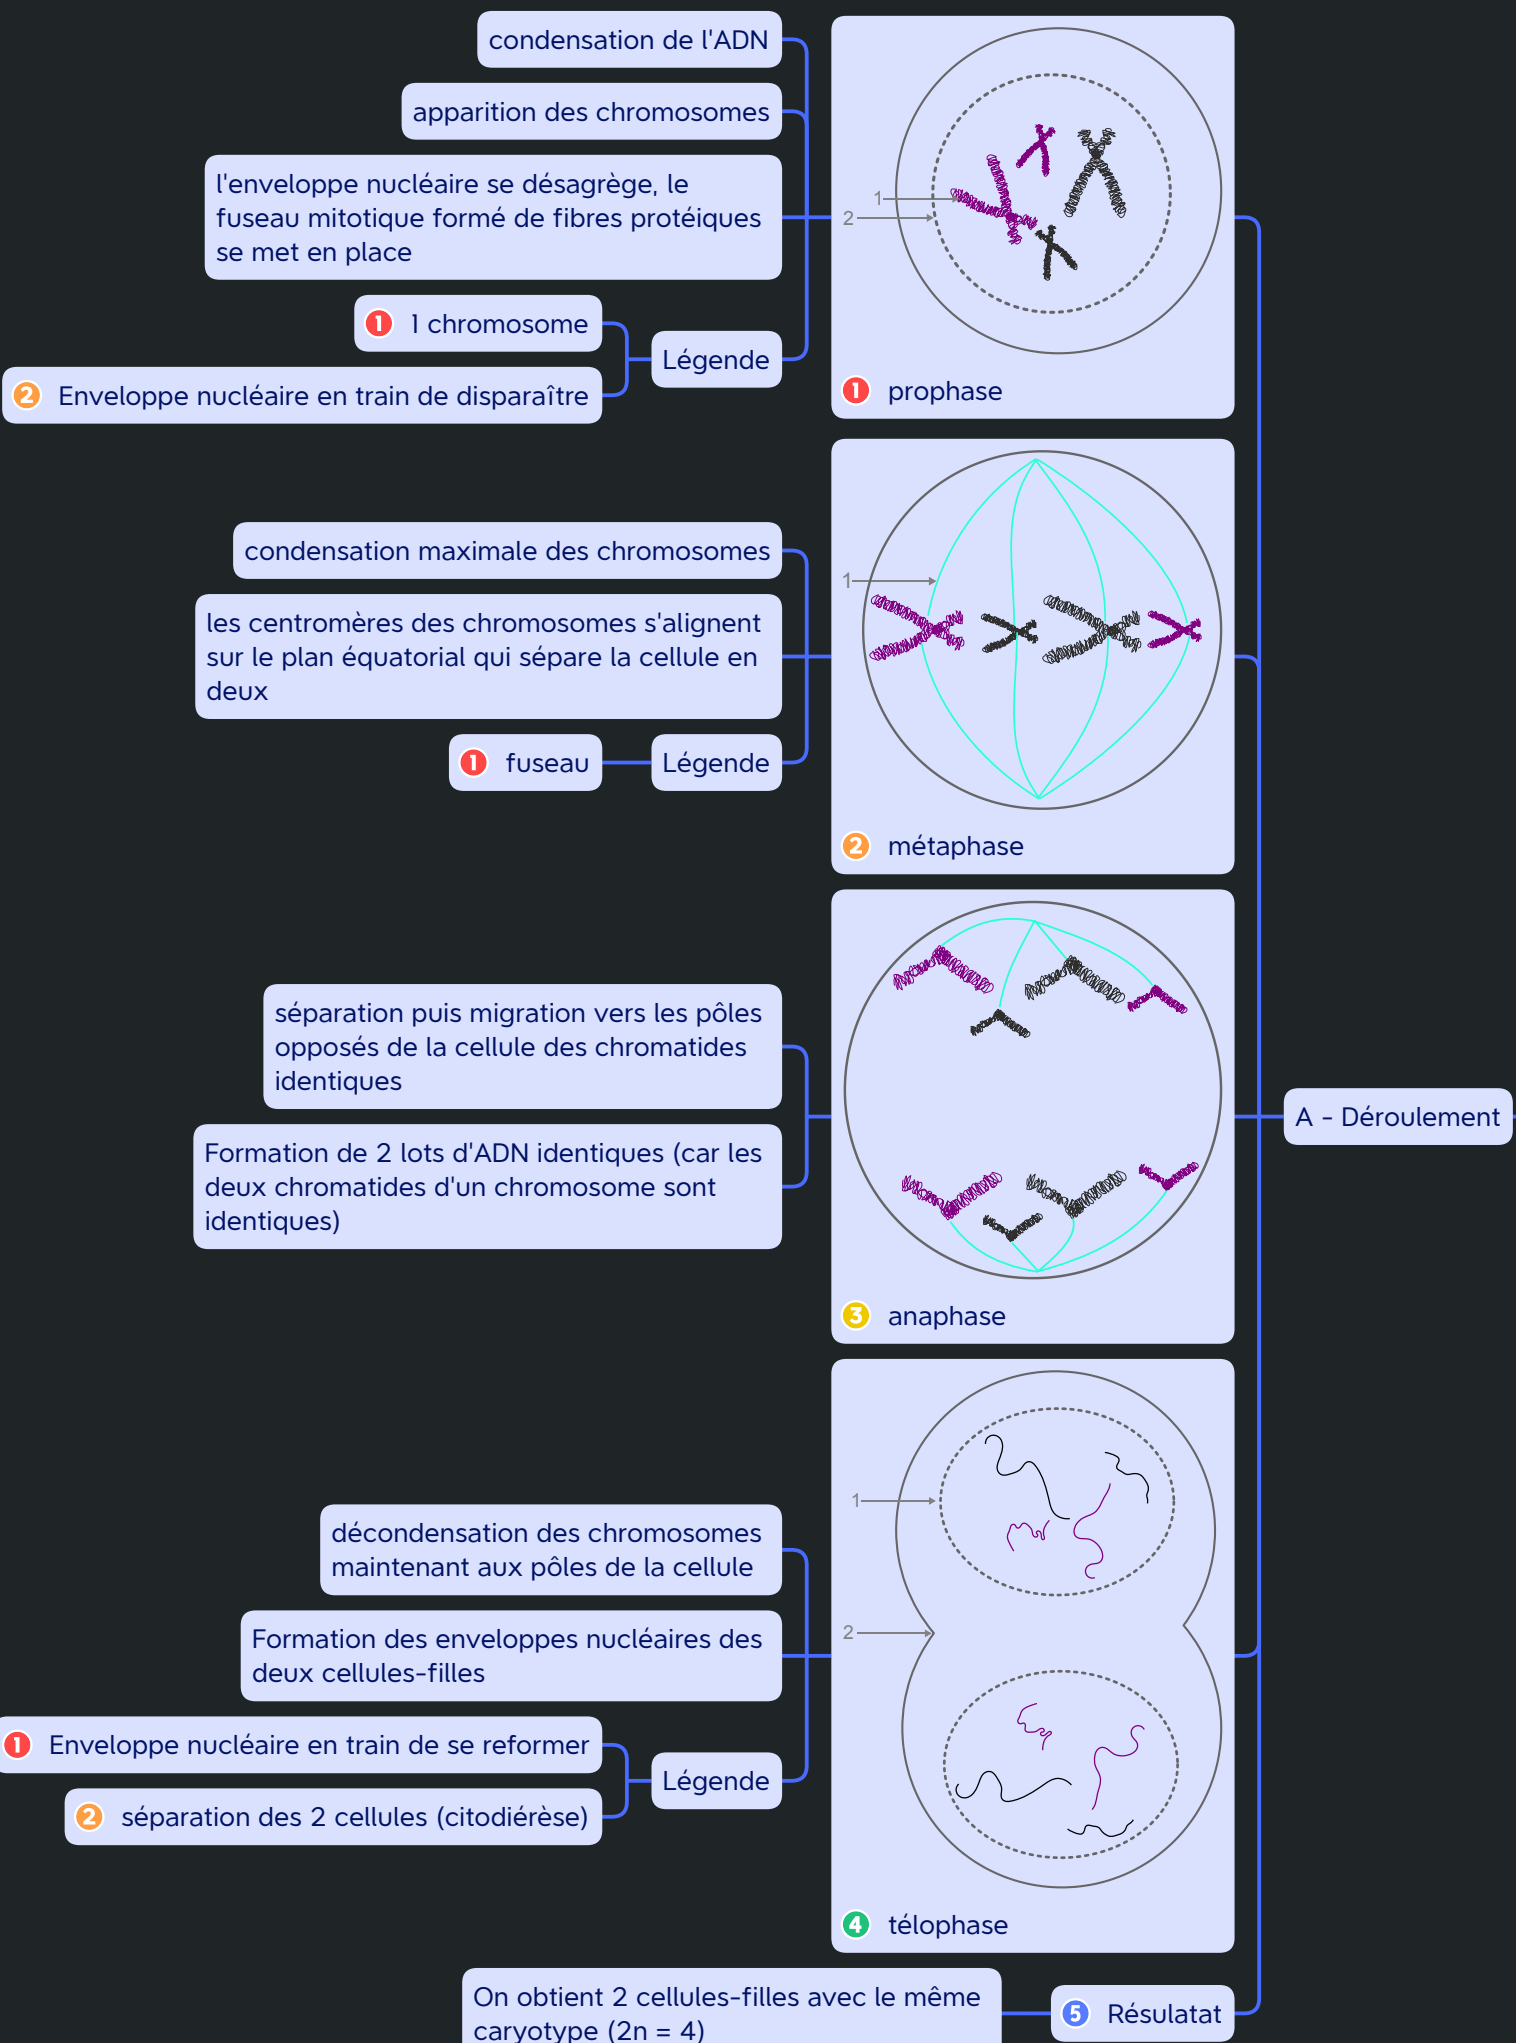

I - Cycle cellulaire

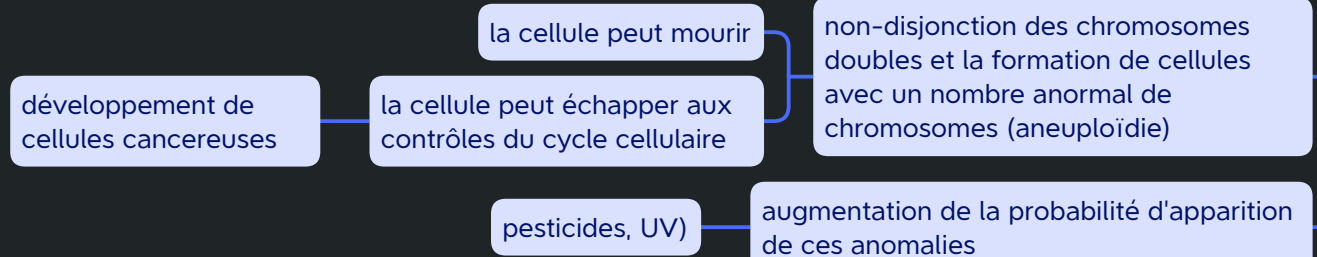

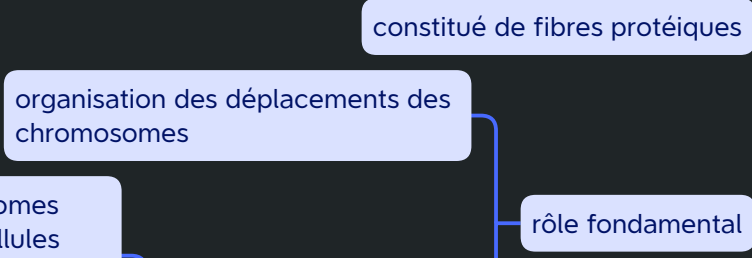

vert = étapes faisant partie de l'interphase
Rouge : Mitose → division de la cellule

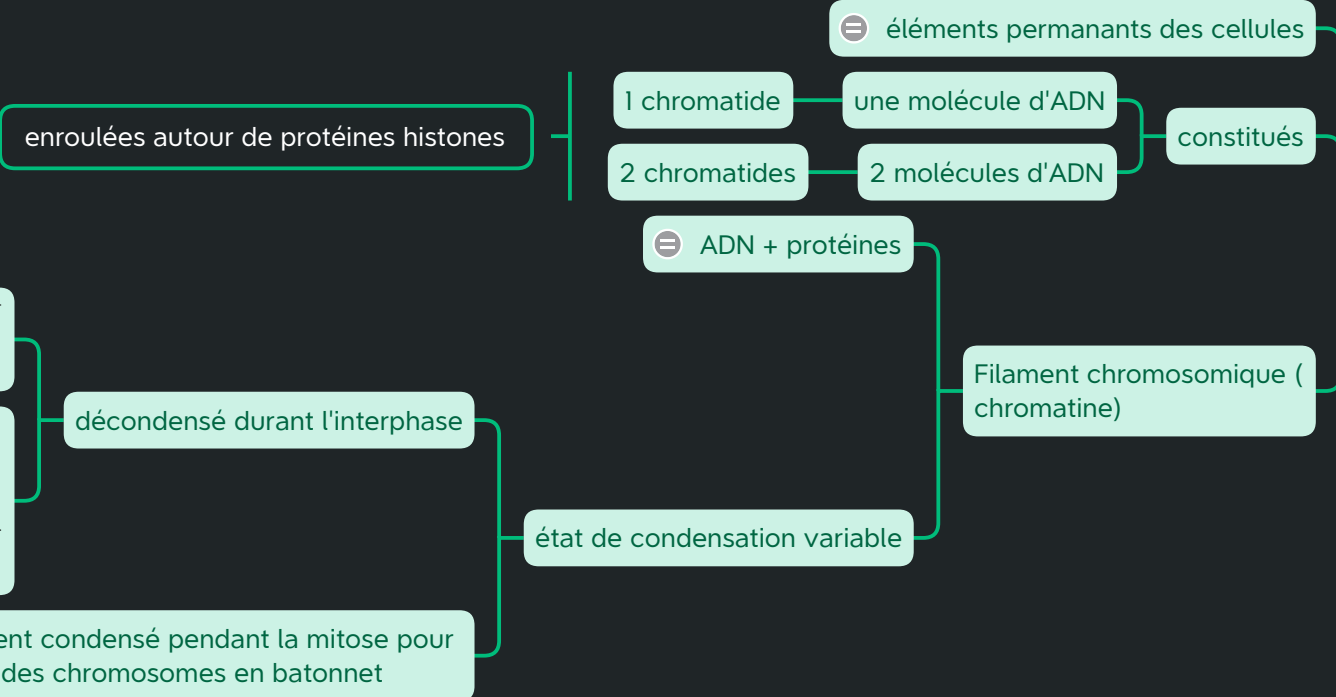

III - Répartition des chromosomes durant la mitose

B - Le fuseau mitotique

II - Chromosome et ADN

Orange : Centromère et Rouge : protéines histones
